

Microsoft Exchange Server 2003 Hosting Benefits

We utilize the best data center - we don't cut corners when it comes to providing Mission Critical Email.

The facility is an Internap data center, which **guarantees the following:**

- 100% network availability guarantee
- 45 millisecond latency max guarantee
- 0.3% packet loss max guarantee
- 0.5 millisecond jitter max guarantee

Features:

- Tier-1 Data Center
- 40,000 sq. ft. facility
- Biometric security
- Multiple layers of hardened physical security
- Multiple layers of electronically controlled card access
- 24x7x365 security presence
- Closed-circuit television surveillance with digital storage
- Six redundant network backbones:
 - Sprint
 - MCI/UUNET
 - Global Crossing
 - Level3
 - SAVVIS
 - Verio
- 2,750KVA of robust, conditioned, highest quality AC power
- Four Liebert 600 series UPS systems (3-750KVA & 1-500KVA)
- 5750 KW of redundant generator backup with 30-hour fuel supply and extended fuel contracts
- 680 tons of robust and redundant HVAC
- Temperature maintained between 64 and 78 degrees
- 24 Liebert HVAC units for N+1 redundancy
- Liebert rooftop glycol drycooler units for N+1 redundancy
- Floor water dams with liquid sensors
- Steam humidification
- VESDA (Very Early Warning Smoke Detection)
- Zoned dry-piped pre-action sprinkler system
